I wish I could be giving you some good news but by now your clubs will all have received notification on the Mako Shark. As I said last month this has been in the pipeline for a while and was just a matter of time before it became legal. There are still negotiations going on but I doubt if they will come to anything. This is a world wide ban and as Australia is a signatory we have to go with it. The impact on our fishing is going to be enormous, particularly those clubs who rely on the Mako and there will have to be some serious re thinking as far as tournaments go.

On a brighter note .... this month has brought some really good results and it is great to see our younger anglers doing so well. We have a whole bunch of tournaments coming up in the new year so get out there and make the most of it.

I am planning on having a meeting I towards the end of January so will let you know the date as soon as confirmed.

Please have a safe and happy Christmas.
